As part of the road safety week programs, traffic police and NSS department of MEGHA INSTITUTE OF ENGINEERING AND TECHNOLOGY FOR WOMEN organized an awareness program on road safety at the college in the Seminar Hall on 30/07/2020. Ghatkesar PS Inspector of Police Mr. N. CHANDRABABU explained to the students the importance of following traffic rules. Addressing students, Mr. N. CHANDRABABU stressed on the importance of following traffic rules for road safety, rather than treating road safety as a mere slogan. He advised students to be aware of traffic rules right from college days and never resort to drunken driving. He exhorted parents to discuss road safety measures, such as wearing a helmet while driving bikes and seat belts while driving cars, with their children.

Mr. Chandrababu advised students not to do rash driving, as every year 5.27 lakh people die worldwide due to road accidents. In India alone, 410 road accidents were reported every day and mostly youth between ages 18 and 25 die in road accidents, he said. The officer explained various measures taken by the traffic department to regularize traffic and prevent accidents. Our college Vice Principal, Mr. B. Sai Venkat Krishna, Mr. K. Madhu Babu, and Mr. Mohd. Abdul Hafeez, faculty, students and others participated in the program.

WORLD LITERACY DAY

MIETW NSS Unit has Conducted "World Literacy Day" on 8th September 2020 in one of the village adopted by the MIETW i.e., Edulabad. As a part of this, NSS Volunteers, NSS In charge and Faculty Members from department of CSE are involved.

On the day of the event, all the NSS volunteers, NSS faculty In charge and four Faculty Members of the parent department started from the college at 9.30 am in bus and reached the by 10.00 am. After reaching the EDULABAD, all the volunteers are again divided into 6 groups by the faculty in-charge with a faculty along with them. All the 6 groups went in four directions from the Edulabad X Road, Edulabad, to ensure that the volunteers covered most of the village premises. The aim is to create greater awareness, education and understanding with villagers on the importance of Literacy in their lives. According to analysis one out of five villagers have not been educated so we planned to create awareness of literacy to reduce that. Our volunteers made villagers aware about the importance of literacy in present society. Villagers showed a great attention towards our words on literacy.

A Blood Donation Camp and awareness programme was organized on October 29, 2020 at Megha Institute of Engineering and Technology for Women, NSS UNIT-MIETW in collaboration with Lions Blood Bank. It began at 10:30 am with an awareness programme which was introduced by Mr. Sai Venkata Krishna vice Principal MIETW and convener of this programme. Mr. Sai Venkata Krishna welcomed the chief guest Dr. Sampath Kumar who has donated blood 211 times and has a world record to his name. Dr Sampath Kumar said that such programmes are a good initiative to pay back what the society gives us. He stressed the fact that more such programmes should be conducted while appreciating the efforts of NSS UNIT- MIETW who motivated a large number of students by imparting knowledge about the medical benefits of blood donation and debunked the common myths associated with it. He also thanked the president of Lions Blood Bank, who agreed to provide a Blood Donation Card free to the donors and also announced to provide 1 Lakh Insurance to the donors.

Megha Institute of Engineering and Technology for Women (MIETW) National Service Scheme (NSS), Planning & Development jointly Conducted “Fire Safety Mock Drill” on 7 th November 2020 by Telangana State Disaster Response and Fire Services Department, Ghatkesar, Medchal District. Fire Officer Mr. Venkateswara Reddy and Staff had given Awareness and Mock Drill on Fire Accidents in MIETW Ground for Faculty, Staff and workers. All Faculties had participated in the Drill.

“Fire is a good servant but a bad master” is a saying which is true with a fire hazard. Fire is a naturally occurring companion of energy released in the form of heat and light, when oxygen combines with a combustible or burnable material at a suitable high temperature. There are three components in fire viz. fuel, heat and oxygen. These three in the right combination produces fire. These three forms a ‘fire triangle’. Taking away any of the three components can extinguish fire. Fire hazards pose threats to life and property.

Fire is one of the most common hazards in the state due to which many lives and damages occur every year; hence Fire safety is very important aspect of disaster prevention. Fire can be prevented with adequate planning and proactive response at the initiation of fire.

Importance of Food Service started at 1.00 PM on 28th January, 2021. The NSS coordinator elaborated the importance Food. The Food Support Programme is a short-term food assistance and development programme that targets vulnerable persons and families in need. Recipients can purchase basic food items necessary to meet their daily nutritional requirements, thereby enhancing the health and dignity of their household and reducing the incidence of poverty. It provides families in extreme poverty with access to critical services, facilitating their access to services relevant to their needs. It seeks to empower the household to improve their quality of life. The Coordinator proposed vote of thanks and praised the students and faculty who took part in the event and made grand success.

Description of the Program:

The corona virus disease 2019 (COVID-19) pandemic is currently perceived as one of the greatest global threats, not only to public health and well-being, but also to global economic and social stability.

Wearing face masks and use of sanitizers are recommended as part of personal protective equipment and as a public health measure to prevent the spread of corona virus disease 2019 (COVID-19) pandemic. Their use, however, is deeply connected to social and cultural practices.

June 21 is celebrated as International Yoga Day since 2015. This day was celebrated today by keeping in mind the theme ‘Yoga for Humanity’ all over India.

The NSS units of MIETW, Ghatkesar observed the International Yoga Day. The resource person for the program was Mr Mahender, a professional yoga guru, practitioner and trainer

The program began at 10.00 a.m. The practical session was attended by a total of 100 students from MIETW. The Yoga Session was conducted by Mr Mahender and his team. The session began with the prayer following the protocol for the celebration of International Yoga Day. Mr Mahender enlightened the gathering by highlighting various aspects of Yoga and its influence on both body and mind. He explained the importance of yoga in daily life for maintaining a peaceful and healthy living. He, along with his team members, demonstrated and also helped the participants practice some important yoga asanas, which will help them in developing concentration abilities and living a tension free life in future. The session ended with Sarva Shanti Mantra.

The program was also attended by Mr K. Madhu Babu & Mr Mohd Abdul Hafeez, NSS Program Coordinators and all the faculty members of MIETW.

The Program ended at 12.00a.m. with the vote of thanks proposed by Mr Mohd Abdul Hafeez, NSS Coordinator MIETW and Prof Harrison Sunil Presented Memento to Mr Mahender and his Team.

PROGRAM REPORT

Name of the Event / Topic	AWARENESS PROGRAMME ON PLASTIC BAN				
Date of Event	07/07/2021	Venue	ZPHS GIRLS SCHOOL, EDULABAD		
Total No. of Participants :	42	No of Student Participants	35	No of Faculty Participants	7
Name of the Coordinator	Mr. K Madhu Babu & Mr. Mohammed Abdul Hafeez, NSS Coordinator MIETW				

NSS Unit of MIETW organized an awareness program on “SINGLE USE PLASTICS BAN” on 5th April 2022 from 3 pm to 4 pm at ZPHS GIRLS HIGH SCHOOL, EDULABAD by NSS Volunteers and Second year CSE Students. More than 45 participants, both Faculty Members and Students, participated in the program.

Single-use plastics, often also referred to as disposable plastics, are commonly used for plastic packaging and include items intended to be used only once before they are thrown away or recycled. These include, among other items, grocery bags, food packaging, bottles, straws, containers, cups and cutlery. The objective of this program is to create awareness among the student community about the hazards of single-use plastics and protecting marine habitats and water bodies from plastic pollution.

Our NSS Volunteer divided into 6 teams comprising of 7 members including one faculty member. Each Team went to class V to X and created awareness on single use plastic to students. The team members gave presentations through posters and demonstrations to make them understand clearly and they also briefed them about the consequences of single use plastic. School Students assured the NSS volunteers that they will not use single use plastic and also assured them about it.

The Programme ended at 4 PM. The NSS volunteers and faculty met with the principal and handed over the poster to the principal. The Principal of ZPHS appreciated the efforts of all the volunteers and asked them to continue the same in the future.

Description of the Program:

World AIDS Day is observed on the 1st of December every year since 1988, dedicated to raising awareness about the condition called acquired immunodeficiency syndrome caused by the virus called human immunodeficiency virus or HIV, and paying respect to those who have died of this illness. Today, scientific advances have been made in HIV treatment; there are laws to protect people living with HIV and we understand so much more about the condition. World AIDS Day is important because it reminds the public and government that HIV has not gone away – there is still a vital need to raise money, increase awareness, fight prejudice and improve education.

This World AIDS Day, UNAIDS is highlighting the urgent need to end the inequalities that drive AIDS and other pandemics around the world.

Without bold action against inequalities, the world risks missing the targets to end AIDS by 2030, as well as a prolonged COVID-19 pandemic and a spiralling social and economic crisis.

Forty years since the first AIDS cases were reported, HIV still threatens the world. Today, the world is off track from delivering on the shared commitment to end AIDS by 2030 not because of a lack of knowledge or tools to beat AIDS, but because of structural inequalities that obstruct proven solutions to HIV prevention and treatment.

Economic, social, cultural and legal inequalities must be ended as a matter of urgency if we are to end AIDS by 2030.

Although there is a perception that a time of crisis is not the right time to prioritize tackling the underlying social injustices, it is clear that without doing so the crisis cannot be overcome.
